REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The amendment filed on 11/22/04 is sufficient to overcome the 35 USC, 112, second paragraph rejection of the previous office action.

The prior art does not teach or suggest a method including the step of forming a first window and a second strip-shaped window by opening in the second metallization level and in the second insulating layer, wherein the first window corresponds to the contour of the first opening and the external contour of the second window corresponds to the internal contour of the second opening as defined in claim 1.

2. The closest prior art French patent 2,779,271 disclose a process of forming a structure, wherein openings are formed in two metallization layer and two insulation layer but fails to teach forming a first window and a second window in the second metallization layer and in the second insulating layer, wherein the first window corresponds to the contour of the first opening and the external contour of the second window corresponds to the internal contour of the second opening as defined in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
